Advisory Bulletin

COVID-19 (Coronavirus)

Fire Equipment Services is committed to community safety and protecting you and your assets as our highest priority. We are actively monitoring the COVID-19 (Coronavirus) situation, taking proactive steps and following official advice issued by the Victorian and Australian governments.

Health & Safety

For the health and safety of you and your personnel, we are monitoring travel, potential exposure and symptoms of all FES staff, trainers and technicians while adhering to recommended hygiene practices and consulting with you on your specific site requirements.

Service Delivery

To ensure we maintain business operations and continue to serve your needs, we have established an Incident Management Team to lead our response to COVID-19. To date, this includes meeting regularly with Government officials and organisational leaders to coordinate our efforts, activating our MFB Business Continuity Plan which includes a specific FES Response and Recovery Plan and establishing contingencies to minimise disruption to ensure continued supply of our services to you.

As this is a rapidly changing environment, we will continue to work with government and other stakeholders to ensure a coordinated response and keep you informed of developments.

If you have any concerns at all about FES visiting your site/s, we ask that you contact us immediately on 1300-855-163 or service@fes.com.au.

A handwritten signature in black ink, appearing to read 'Stuart', with a horizontal line underneath.

Stuart Yarnall
General Manager
